# DD 700 WEIGHING TERMINAL

## User-Friendly Design

The DD 700 series terminal has been designed from the ground up to be simple and user-friendly. This weighing terminal comes preloaded with both single weighing and truck in / truck out programs. In addition to the easy-to-use software each DD 700 has a USB port that allows the user to input information using a QWERTY keyboard.

## Reliable Construction

The DD 700 offers the same functionality of the other DD Series terminals, but in a smaller package. The terminal is intended for industrial applications. The DD 700 and DD 700ic come with enclosures with an IP20 rating, while the DD 700i is built with a case that has been certified to IP68.

## Specifications

- NTEP COC: 15-113
- CANADA: AM-6012
- Desktop mount molded ABS plastic enclosure / Swivel bracket and wall mount bracket with stainless steel enclosure (IP68) rating
- High visibility backlit LCD full graphic display
